# Indian Cyber Security Solutions

in association with

# Indian Institute of Cyber Security

Step into cybersecurity with our CISSP (Certified Information Systems Security Professional) Training Program, offered by Indian Cyber Security Solutions and the Indian Institute of Cyber Security.

Gain in-depth knowledge of key domains including security and risk management, network security, identity and access management, and security operations.

Learn industry best practices and develop the skills to design and manage secure systems through structured training and expert guidance.

Build the confidence to clear the CISSP certification and advance your career in cybersecurity.

# About the Program

---

This program is designed to build strong knowledge in CISSP (Certified Information Systems Security Professional) with a focus on enterprise-level security practices and frameworks.

Learn key domains such as security and risk management, network security, identity and access management, and security operations through structured and comprehensive training sessions.

Gain a deeper understanding of industry standards, policies, and best practices while developing the skills required to design, implement, and manage secure systems in real-world environments.

With expert guidance and a focus on practical understanding, this program prepares you to confidently approach the CISSP certification and strengthen your professional expertise.

This program is ideal for professionals looking to advance their careers and achieve CISSP certification in cybersecurity.

# Certification

After the completion of the course, candidates will get a joint certificate from Indian Cyber Security Solutions and Indian Institute of Cyber Security

# Course Fee

<p><b>Online LIVE Training</b></p>
<p><b>Course Fee: INR 60,000/</b> (One-time payment)</p> <p><b>Course Duration: 40 Hours Training</b> (2 Months)</p> <p><b>Batch Timing</b> One Class Per Week</p>

# C|CISSP Training Course

---

## Module

# Key Highlights

# Why Choose

## C|CISSP Training at ICSS

---

### Expert Instructors

Learn from experienced cybersecurity professionals with expertise in enterprise security and risk management.

### Practical and Hands-on Training

Get structured training across all CISSP domains with a focus on conceptual clarity and exam preparation.

### Flexible Learning Options

Choose between online and classroom training designed for working professionals.

### Strong Career Opportunities

Gain globally recognized skills that open opportunities in advanced cybersecurity roles.

# Eligibility Criteria

---

**Individuals with a Technical foundation can expand their expertise by enrolling in CISSP (Certified Information System Security Professional)**

- Minimum of **5 years experience in cybersecurity Domain**
- Basic understanding of information security, networks, and computer systems
- Strong analytical thinking and problem-solving abilities
- Comfort working with technology along with a continuous learning mindset
- Familiarity with cloud computing concepts (such as AWS, Azure, or GCP) is beneficial but not mandatory

# Trainers Profile

---

- **Penetration Testing & VAPT Experts:**

Trainers with deep hands-on experience in network, web, and system penetration testing, red teaming, and vulnerability assessment.

- **Hands-On Teaching Approach:**

Practical labs covering reconnaissance, exploitation, privilege escalation, post-exploitation, reporting, and real-world attack simulations.

- **Years of Industry Experience:**

Professionals with strong backgrounds in offensive security, ethical hacking, incident response, and security consulting.

- **Corporate Training Expertise:**

Experienced in delivering VAPT and security training to organizations across various industries, aligned with modern security standards.

- **Personalized Learning Support:**

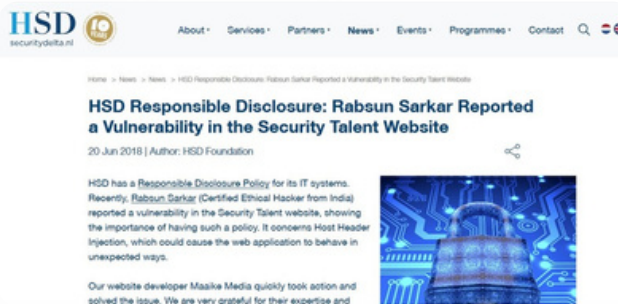

One-on-one guidance, feedback, and continuous support to ensure students master practical penetration testing skills.

- **Career Guidance & Mentorship:**

Support with resumes, interviews, certification planning, and career direction for roles in ethical hacking, VAPT, and penetration testing.

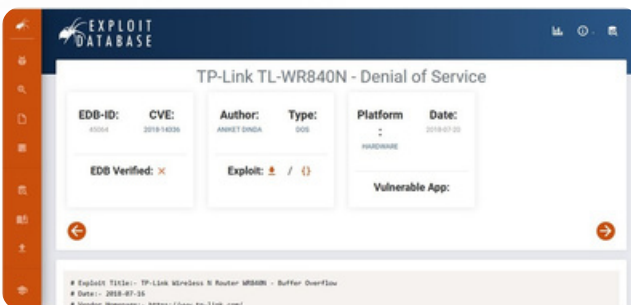

# Student Achievements

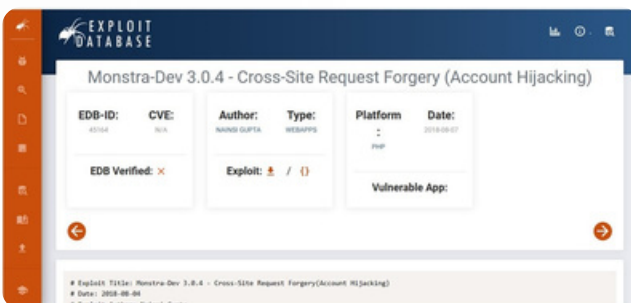

**Rabsun Sarkar** one of our students has found zero-day vulnerabilities in Google and in the Security Talent Website and also reported the same:

<https://securitydelta.nl/news/overview/hsd-responsible-disclosure-rabsun-sarkar-reported-a-vulnerability-in-the-security-talent-website>

**Aniket Dinda** is our student who has found out about Zero-Day Vulnerability and has been published on Exploit DB:

<https://www.exploit-db.com/exploits/45064>

**Nainsi Gupta** is our student who has found out about Zero-Day Vulnerability and has been published on Exploit DB:

# Other Collaborators

Parul University: Indian Cyber Security Solutions (ICSS) is delighted to join forces with Parul University in April 2022, marking the start of a five-year strategic collaboration focused on pushing the boundaries of cybersecurity education and research. ICSS will be investing its expertise and resources into this venture, equipping students with unrivaled skills for success in their field - ultimately igniting positive change across the industry through our steadfast commitment. We are brimming with anticipation over what incredible results will come from this partnership!

MAKAUT (ISKFGI College): With the ever-growing demand for skilled cybersecurity professionals. ICSS has teamed up with SKFGI College in a long-term partnership to establish an industry-leading program. For 10 years we will use our wealth of expertise and resources to ensure that students receive cutting-edge knowledge and skills from this collaboration- creating future leaders who can tackle any cybersecurity challenge. Our ambition is clear-develop tomorrow's talent today by empowering young minds into becoming successful digital citizens!

**L**OVELY  
**P**ROFESSIONAL  
**U**NIVERSITY

Lovely Professional University: Indian Cyber Security Solutions has collaborated with LPU to organize cyber security workshops, Hackathons and Bootcamps. The students at LPU put their skills to the test, making for a truly inspiring event. LPU and ICSS have decided to organize more such events as these events help them to sharpen the skills.
